HOME SWEET HOME

Chantel Skafel-Benitez, a single mother with five children, receives handshakes from invited guests and visitors Friday after receiving the keys to a new home. The duplex, located at 222 and 224 Ave. V South, was built by Habitat for Humanity Saskatoon and students in the high school carpentry apprentice program run out of Mount Royal Collegiate. Habitat Saskatoon received \$100,000 in funding for the project from the Saskatchewan Housing Corp. Interest-free mortgage payments on the new home have been amortized at 24 to 30 per cent of the family's income. (SP Photo by Gord Waldner)
